

2018 Official Application Announcement

The Loyd E. Williams
Pipe Trades Training Center
780 Commercial Street · San Jose · California · 95112
(408) 453-6330
www.pipetradestraining.org

Applications for apprenticeship in **REFRIGERATION & AIR CONDITIONING MECHANICAL SERVICE** are available in our office and on our website at www.pipetradestraining.org starting January 2nd, 2018.

You cannot hand in your completed application until February 26th, 2018.

COMPLETED APPLICATIONS WILL BE ACCEPTED ON THE FOLLOWING DATES AND TIMES AT THE TRAINING CENTER OFFICE:

- February 26th, 27th, 28th, March 1st, 2nd (Monday – Friday from 8:30am to 6:00pm)
- March 5th, 6th, 7th, 8th, 9th (Monday – Friday from 8:30am to 6:00pm)

Applications will be accepted *ONLY* for apprenticeship in Refrigeration & Air Conditioning Mechanical Service. The application will not be transferrable to the Plumbing or Steamfitting-Pipefitting apprenticeships. Individuals submitting an application at this time will still have to apply again in order to become eligible to take the test for the Plumbing or Steamfitting-Pipefitting apprenticeships.

ALL APPLICATIONS MUST BE SUBMITTED IN PERSON BY THE APPLICANT WITH THE FOLLOWING:

- 1) Your high school diploma, or GED *and*
- 2) Valid Driver's License or Identification Card issued by the D.M.V.
- 3) All records must be presented in English

****Diploma's will be verified; online Diploma's will not be accepted****

HOURLY WAGE RATE:

Starting wage is 41% of Journeyman wage rate.

CHARACTERISTICS OF THE TRADE:

Apprentices will be required to be in possession of a valid Driver's License and maintain a safe driving record. Apprentices shall be under supervision of a qualified journeyman at all times. The trade requires physical effort on the part of the apprentice to do climbing, crawling, pulling, lifting, crouching and working in cramped quarters. Mechanical ability and finger dexterity are very essential. Depending on the job, the work may be performed either indoors or outdoors, with the major portion of the work outdoors in semi-sheltered or unfinished buildings or in deep ditches and on high scaffolds.

*** SEASONAL WORK SUBJECT TO WEATHER AND ECONOMIC CONDITIONS ***

The purpose of the Loyd E. Williams Pipe Trades Training Center is to develop and maintain a highly skilled workforce by providing ongoing training opportunities.

2018 Official Application Announcement

MINIMUM REQUIREMENTS:

1. Age: Must be at least 17 years of age to apply. Qualified applicants who are 17 years old may take the exam but will not be dispatched until they reach their 18th birthday.
2. Education: Must be a high school graduate or hold a High School Proficiency certificate or have an acceptable G.E.D. certificate or college diploma. Online diplomas are not accepted.
3. Physical: Applicant must be of such physical condition as not to place him/herself or their future co-worker in jeopardy. No physical examination is required. However, applicant must be able to perform the physical requirements of the Trade.
4. Other: Applicant may be required to pass a drug/alcohol test prior to being dispatched to an employer.

LENGTH OF APPRENTICESHIP:

The length of apprenticeship for this trade is five (5) years of on-the-job training which includes five (5) years of night school. Apprentices work during the day and attend classes two nights per week. Earn while you learn and tuition is free! A journeyman certificate is awarded upon successful completion of the program.

ENTRANCE EXAMINATION:

Qualified applicants will be notified of the date, time and place to report for the Entrance Examination.

The **Entrance Examination** is scheduled as follows:

- Date:** Saturday, April 7th, 2018
- Time:** *To Be Determined*
- Place:** Pipe Trades Training Center
780 Commercial Street
San Jose, CA 95112

No individual will be allowed to take the Entrance Exam more than three (3) times.

DESCRIPTION OF OCCUPATION

REFRIGERATION & AIR CONDITIONING MECHANICAL SERVICE:

The Refrigeration/Air Conditioning Service Mechanic is responsible for the service, repair, installation, and retrofit of all types of refrigeration equipment, from the smallest air conditioning systems to the air conditioning and refrigeration units used in hospitals, skyscrapers, research and development laboratories, supermarkets and other complex installations.

The selection of apprentices will be made on the basis of qualifications alone, without regard to religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status of the person discriminated against.

The Pipe Trades Training Center

Mathematics Test Information

Below is a list of areas you are encouraged to study for the math portion of the entrance exam.

- **Whole numbers:** addition, subtraction, multiplication, and division
- **Fractions:** addition, subtraction, division, and multiplication, converting improper to proper fractions, reducing
- **Percents:** converting to/from decimals or fractions, ratios, proportions
- Know how to read a tape measure
- **Geometry:** square root, diameter, area, perimeter

Sample Questions

The following sample questions will not appear on the test. They are an example of the type of questions that might appear on the test. Calculators are not allowed during the entrance exam!

1. If your pay is \$52.00 a month, how much will you earn in a year?
2. Your grades on 5 tests were 80%, 90%, 70%, 60% and 50%. What is the average of your 5 grades?
3. A dealer bought 3 loads of coal weighing 6,242 lbs., 28,394 lbs. and 143,686 lbs. How much did he buy in all?
4. It takes 5 lbs. of cement to cover 10 square feet. How many lbs. of cement will be needed to cover a rectangular area 25 ft. by 10 ft.?
5. Two machinists operating the same lathe, work 10 hours each on a day shift and on a night shift, respectively. One man turns out 400 pieces an hour, the other 600 pieces an hour. What will be the difference in their output at the end of 30 days?
6. If it takes 5 hours to do $\frac{2}{3}$ of a job, how long will it take to complete the job?

Find the decimal equivalent to the nearest thousandths of the following:

7. $\frac{3}{4}$
8. $\frac{28}{32}$
9. $\frac{56}{64}$
10. $\frac{31}{32}$
11. $\frac{7}{64}$

12. Multiply .214 by .303
13. Multiply .014 by .0064
14. Find $12\frac{1}{2}$ % of 96 men.
15. Find $\frac{1}{2}$ of 1% of 190 tons.
16. 225 is 25% of what amount?
17. 120 is what percent of 240?
18. A truck carrying 6,750 lbs. of lead weighed 9,000 lbs. What percent of the total weight was due to the weight of the truck?
19. One customer received a 25% discount on a \$300 bill. The second customer received an 8% discount on a \$300 bill. The third customer received a 5% discount on a \$300 bill. What was the total amount discounted to the three customers?
20. A plumber sells 100 sets of bathroom fixtures at \$165.00 per set. At 16% what would his commission be?
21. A loss of \$13.50 on a washing machine represents 15% loss on the selling price. What is the selling price?
22. Find the square root of 2937.44 by the arithmetic method.
23. Find the volume of a rectangular solid 20 ft. wide, 28 ft. long and 16 ft. high.
24. Find the area of a circle that has a radius of 12 inches.
25. A company marched 48 miles in 5 days. The first day they marched 12 miles, the second day 9 miles, the third day 7 miles, the fourth day 9 miles. How many miles did they march the last day?
26. If an automobile travels 450 yards in 15 seconds, how many feet does it go in $\frac{1}{3}$ of a second?
27. How many tiles 9 inches square will be necessary to floor a room measuring 35 feet by 20 feet? (Round off to nearest tile)
28. Add the following numbers: 4,585,285 plus 792 plus 73,214.
29. 620.75 divided by .25 equals
30. A 3" pipe has an inside diameter of 3.067" and an outside diameter of 3.5". What is the thickness of the wall?

| | | | | | | |
|-----------------|-----|--------------------|-----|------------|-----|---------------------------|
| Answers: | 1. | \$624.00/year | 11. | .109 | 21. | \$90.00 |
| | 2. | 70% | 12. | .064842 | 22. | 54.198 |
| | 3. | 178,322 lbs. total | 13. | .0000896 | 23. | 8,960 cubic ft. |
| | 4. | 125 lbs = x | 14. | 12 men | 24. | 452.3904 sq. in. |
| | 5. | 60,000 pieces | 15. | .95 tons | 25. | 11 mi. |
| | 6. | 7.5 hours = 1 job | 16. | 900 = ? | 26. | 30 ft. |
| | 7. | .750 | 17. | 50% | 27. | 1,244 tiles |
| | 8. | .875 | 18. | 25% | 28. | 4,659,291 |
| | 9. | .875 | 19. | \$114.00 | 29. | 2483 |
| | 10. | .969 | 20. | \$2,640.00 | 30. | .2165" (1)-wall thickness |

DIRECTIONS

Find the space for Mechanical Reasoning on your answer document. You are to mark all of your answers on your answer document. Do *not* write in this test booklet.

In this test, you are to read each question carefully, look at the picture or pictures, and choose which one of the three answers, A, B, or C, is the *best* answer. Then mark the space on your answer document for the answer you have chosen.

Look at *Sample A*.

Sample A shows two pictures that look similar. However, one detail is different: picture A shows the bat hitting the bottom of the baseball, and picture B shows the bat hitting the top of the baseball.

Ball A will fly higher because the bat is hitting the ball from below. Circle A for *Sample A* has been filled in on your answer document.

Look at *Sample B*.

Sample B also shows two pictures that are similar except for one detail: picture A shows a wagon with the handle down, and picture B shows a wagon with the handle up.

The answer is C. Both wagons can move in the direction shown because the handle position has no effect when the wagons move backwards. Fill in circle C for *Sample B* on your answer document.

Remember, if the question relates to two or more pictures, assume that the pictures are exactly the same except for the *one* detail that is shown to be different. Before you answer the question, look at each picture carefully and notice the one detail that is different.

If you have difficulty with a particular question, leave it and do the ones you find easier. Then, if you have time, go back to the questions you have skipped on this test only. Do *not* go on to the next test. Stop and wait for further directions.

SUGGESTED STUDY MATERIALS FOR THE MATH AND MECHANICAL REASONING TESTS

Please choose one math and one mechanical reasoning book to assist you in studying for the entrance exam. All books should be available to order online through Amazon or your local bookstore.

MATH:

1. Practical Math Success in 20 Minutes a Day, 5th Ed.
Author: LearningExpress LLC
Publisher: LearningExpress LLC
